NOTE:

- · In above table, range of gases start from zero.
- Confirm Gas sampling Hose length by equiry & it is available only for Suction type detector.
- · Gases which are not listed, are available on request & for other details cotact factory.
- · All VOC's are available in PID detection principle in PPM ranges.
- · PID detector will be provided by calibration with Isobutylene gas.
- In PID detector, VOC other than Isobutylene is calibrated with Isobutylene gas by setting VOC correction factor,
- In Calibration Report, VOC factor with respect to Isobutylene gas will be mentioned.
- Detection value of VOC = Isobutylene gas concentration value x factor.
